Overhead/Handout 3.3. Things to Watch For

Watch for change
    in irritability
    in ability or willingness to do ADLs
    in refusal to do things
    in mental function (drowsiness; lower level of alertness and
       less ability to focus; fluctuating ability over hours or days)
    at any time medications have been changed

Listen to complaints
    of pain
    of unhappiness
