Overhead/Handout 7.4. Facilitating Family/Client Relationships
When the Person Lives at Home

Teach the family caregiver.

Determine which care techniques work.

Staff members can interpret the meaning of behaviors.

Staff members can be alert to problems of safety.

Staff members can be alert to times when the family caregiver is unable to care.

A staff member can make a referral to therapy and support groups.

Staff members can encourage the caregiver to use the time during paid care for rest and personal recovery.

The home care or day care facility can help the family prepare for residential or nursing home care.
